Contents of Volume 38

NUMBER 1, JUNE 1978

ANJA A. I. KOSTIALA AND E. J. JOKINEN. Induction of Delayed-Type Hypersensitivity with Proteins Made Insoluble by Polymerization..... 1

C. A. McLAUGHLIN, R. PARKER, W. J. HADLOW, R. TOUBIANA, AND E. RIBI. Moieties of Mycobacterial Mycolates Required for Inducing Granulomatous Reactions..... 14

CRAIG W. SPELLMAN AND RAYMOND A. DAYNES. Ultraviolet Light Induced Murine Suppressor Lymphocytes Dictate Specificity of Anti-Ultraviolet Tumor Immune Responses... 25

STEPHANIE L. JAMES AND DANIEL G. COLLEY. Eosinophil-Mediated Destruction of *Schistosoma mansoni* Eggs *in Vitro*. II. The Role of Cytophilic Antibody..... 35

STEPHANIE L. JAMES AND DANIEL G. COLLEY. Eosinophil-Mediated Destruction of *Schistosoma mansoni* Eggs. III. Lymphokine Involvement in the Induction of Eosinophil Functional Abilities..... 48

STEPHANIE L. JAMES AND DANIEL G. COLLEY. Eosinophil-Mediated Destruction of *S. mansoni* Eggs. IV. Effects of Several Inhibitory Substances on Eosinophil Function... 59

JEAN VIALLAT, ERIK SVEDMYR, MICHAEL STEINITZ, AND GEORGE KLEIN. Stimulation of Peripheral Human Lymphocytes by Autologous EBV Genome-Carrying Lymphoblastoid Cell Lines..... 68

T. W. JUNGI AND D. D. MCGREGOR. Activated Lymphocytes Trigger Lymphoblast Extravasation..... 76

JOHANNES J. VAN BEEK, CATHERINA E. M. VAN HUUKSLOOT, MATHIJS VAN AKEN, AND J. GARETH BOWEN. Comparison of the Tube Leukocyte Adherence Inhibition Test with the Lymphocyte Stimulation Assay in a Rat Transplantation Model..... 84

D. S. WEINBERG, M. FISHMAN, AND B. C. VEIT. Functional Heterogeneity Among Peritoneal Macrophages. I. Effector Cell Activity of Macrophages Against Syngeneic and Xeno-geneic Tumor Cells..... 94

J. MILBURN JESSUP, NABIL HANNA, EDMUND PALASZYSKI, AND MARGARET L. KRIPKE. Mechanisms of Depressed Reactivity to Dinitrochlorobenzene and Ultraviolet-induced Tumors during Ultraviolet Carcinogenesis in BALB/c Mice..... 105

DAVID L. ROSENSTREICH, SHARON M. WAHL, AND PHILIP R. B. McMASTER. The Role of B Lymphocytes in Cell-Mediated Immunity. II. Delayed Hypersensitivity Induced by Dinitrophenal-Ficoll in Dinitrophenal-Keyhole Limpet Hemocyanin-Immunized Guinea Pigs..... 116

HANS VAN DIJK AND CHARLES G. VAN BOHEMEN. Indirect Plaque-Forming Cells Detected by Use of Normal Mouse Serum. I. Normal Mouse Serum Plaque-Forming Cells are IgA Producers..... 124

ISAIAH J. FIDLER, RICHARD O. ROBLIN, AND GEORGE POSTE. *In Vitro* Tumoricidal Activity of Macrophages Against Virus-Transformed Lines with Temperature-Dependent Trans-formed Phenotypic Characteristics..... 131

GEORGE L. WILSON AND BOBBY G. YOUNG. Production of Migration Inhibitory Factor (MIF) by Human Leukocytes Following Exposure to Epstein-Barr Virus..... 147

B. JONES. Analysis of Cytotoxic Mechanisms Induced by Minor Histocompatibility Antigens in the Mouse..... 157

H. M. HIRT, H. BECKER, AND H. KIRCHNER. Induction of Interferon Production in Mouse Spleen Cell Cultures by *Corynebacterium parvum*..... 168

SHORT COMMUNICATIONS

PATRICIA M. CAMERON AND DAVID D. WOOD. Response of CBA/N Mice to Human B Cell Activating Factor..... 176

|                                                                                                                                                                                          |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| LOUIS LAFLEUR. Lipopolysaccharide Induction of Immunoglobulin Synthesis in Irradiated Lymphocytes.....                                                                                   | 181 |
| A. V. SERGEEV, S. N. BYKOVSKAJA, L. M. LUCHANSKAJA, AND M. O. RAUSCHENBACH. Pyridoxine Deficiency and Cytotoxicity of T Lymphocytes <i>in Vitro</i> .....                                | 187 |
| HARRY LANGBEHEIM, DVORA TEITELBAUM, AND RUTH ARNON. Cellular Immune Response toward MS-2 Phage and a Synthetic Fragment of its Coat Protein.....                                         | 193 |
| RICHARD P. MACDERMOTT, GEOFFREY S. NASH, MICHAEL J. BERTOVICH, NANCY S. MERKEL, AND ILJA J. WEINRIEB. Human B-Cell Mitogenic Responsiveness to Lectins: The Requirement for T Cells..... | 198 |
| MARIA DE SOUSA AND KOJI NISHIYA. Inhibition of E-Rosette Formation by Two Iron Salts.....                                                                                                | 203 |
| R. E. MANEJAS, S. I. HAMBURG, AND M. RABINOVITCH. Serum Interferon and Phagocytic Activity of Macrophages in Recombinant Inbred Mice Inoculated with Newcastle Disease Virus.....        | 209 |
| SARAH HOROWITZ, JOHN M. MANSFIELD, DAVID L. THOMASSON, AND RONALD J. DOYLE. Immunobiological Properties of a Concanavalin A Derivative.....                                              | 214 |
| ANNOUNCEMENT.....                                                                                                                                                                        | 219 |
| ERRATUM.....                                                                                                                                                                             | 220 |
| PAPERS TO APPEAR IN FORTHCOMING ISSUES.....                                                                                                                                              | 221 |

## NUMBER 2, JULY 1978

|                                                                                                                                                                                                                                                                                              |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| S. MICHAEL PHILLIPS, WILLIS A. REID, BARBARA DOUGHTY, AND PHILIP B. KHOURY. The Cellular and Humoral Immune Response to <i>Schistosoma mansoni</i> Infections in Inbred Rats. III. Development of Optimal Protective Immunity Following Natural Infections and Artificial Immunizations..... | 225 |
| S. MICHAEL PHILLIPS, WILLIS A. REID, BARBARA DOUGHTY, AND PHILIP B. KHOURY. The Cellular and Humoral Immune Response to <i>Schistosoma mansoni</i> Infections in Inbred Rats. V. Prerequisite Mechanisms for the Development of Optimal Protective Immunity                                  | 239 |
| K. WIKTOROWICZ, P. J. ROBERTS, AND P. HÄYRY. Effector Mechanisms in Allograft Rejection. IV. In Contrast to Late Cytotoxic Cells, the Early Killer Cells Infiltrating Mouse Sponge Matrix Allografts are Predominantly T Lymphocytes.....                                                    | 255 |
| SOMESH D. SHARMA AND WILLY F. PIESSENS. Tumor Cell Killing by Macrophages Activated <i>in Vitro</i> with Lymphocyte Mediators. II. Inhibition by Inhibitors of Protein Synthesis                                                                                                             | 264 |
| SOMESH D. SHARMA AND WILLY F. PIESSENS. Tumor Cell Killing by Macrophages Activated <i>in Vitro</i> with Lymphocyte Mediators. III. Inhibition by Cytochalasins, Colchicine, and Vinblastine.....                                                                                            | 276 |
| CLAUDE LECLERIC, ILANA LÖWY, AND LOUIS CHEDID. Influence of MDP and of Some Analogous Synthetic Glycopeptides on the <i>in Vitro</i> Mouse Spleen Cell Viability and Immune Response to Sheep Erythrocytes.....                                                                              | 286 |
| JOSÉ QUINTÁNS AND RUTH BENCA KAPLAN. Failure of CBA/N Mice to Respond to Thymus-Dependent and Thymus-Independent Phosphorylcholine Antigens.....                                                                                                                                             | 294 |
| RICHARD M. SCHULTZ, NICHOLAS A. PAVLIDIS, MICHAEL A. CHIRIGOS, AND JOSEPH F. WEISS. Effects of Whole Body X-Irradiation and Cyclophosphamide Treatment on Induction of Macrophage Tumorcidal Function in Mice.....                                                                           | 302 |
| AMIN I. KASSIS, KENNETH S. WARREN, AND ADEL A. F. MAHMOUD. The <i>Schistosoma haematobium</i> Egg Granuloma.....                                                                                                                                                                             | 310 |
| PHYLLIS LIU OSHEROFF AND DAVID R. WEBB. Stimulation of Splenic Prostaglandin Levels by DNP-Protein Antigens.....                                                                                                                                                                             | 319 |
| J. HAMURO, H. WAGNER, AND M. RÖLLINGHOFF. $\beta$ (1-3) Glucans as a Probe for T Cell Specific Immune Adjuvants. II. Enhanced <i>in Vitro</i> Generation of Cytotoxic T Lymphocytes.....                                                                                                     | 328 |
| M. A. PALLADINO AND G. J. THORBECKE. Immunity to Transplantable Carcinogen-Induced Fibrosarcomas in B2/B2 Chickens. I. Use of Bacterial Adjuvants in Induction of Immunity Demonstrable in Winn Tests.....                                                                                   | 336 |
| MICHAEL A. PALLADINO AND G. JEANETTE THORBECKE. Immunity to Transplantable Carcinogen Induced Fibrosarcomas in B2/B2 Chickens. II. Macrophage Dependency of Adoptive T Cell Mediated Tumor Immunity.....                                                                                     | 350 |

|                                                                                                                                                                                                                                                        |     |
